ABOUT ME

I'm a beginner Front end Developer. I chose this profession because I like to write code, create animations and see complicated result of my work. I feel encouraged and involved in the process of work. I want to become a successful Front end Developer and create incredible projects that will set an example.

I am ambitious and I try to invest in myself here and develop. In everyday life I like a travel vibe, I want to see a lot of countries. I active relaxation outdoors with my close people.
