Skills

Technical: Django, Django Rest Framework, HTML/CSS, PostgreSQL, Docker, Redis, ElasticSearch

Education

Kyrgyz-Russian Academy of Education

Bishkek, Kyrgyzstan

BS IN COMPUTER SCIENCE AND ENGINEERING   *Sep 2011 - Jun 2020*

Experience

Attractor-School   *Bishkek, Kyrgyzstan*

INTERN BACK-END DEVELOPER   *Jan 2020 - March 2020*

I worked as a back-end developer in a team of 5 people. My team assembled of graduates of the Python-Django course at the Attractor School in Bishkek. We developed an online cinema website.

Tasks I completed: Detailed information of a specific movie, watching a movie, show list of similar movies, number of views, movie likes and dislikes, CRUD on movie commentary, likes and dislikes for comments

Responsibilities: Development of back-end for sites using the Django framework, setting up the admin, combining the server part and the client part of the web application, deploying a web application manually, support for web applications.

Used technologies: Python and Django on the back-end, javascript on the frontend, MySQL as database

MITAPP   *Bishkek, Kyrgyzstan*

BACK-END DEVELOPER   *March 2020 – Jul 2020*

I worked in a strong team with back-end developers, front-end developers, business analysts, mobile developers and managers. We have worked on projects such as bloggers.kg , an application where businessmen could order advertisements from famous bloggers. We also developed the VIA application, where employees of beauty salons, spa salons, barber shops, fitness rooms and medical clinics could keep records of clients and know profit reports. Link to view app: https://play.google.com/store/apps/details?id=ru.mitapp.via&hl=ru&gl=US, And one more application, an online store for farmers in Kyrgyzstan, where every farmer could sell, buy or exchange goods. Link to view app: https://play.google.com/store/apps/details?id=ru.mitapp.diykan&hl=ru&gl=US

Responsibilities: development of a backend for a web application using Python and Django, development of SMS authentication functionality, API development for frontend and mobile team using Django Rest Framework, code review

Used technologies: Python and Django, React js on frontend side, client side rendering, DRF for API, PostgreSQL, unit test

ASK CONSULTING   *Remote, Bishkek*

WEB DEVELOPER   *Sep 2022 – Now*

• Developing Customer Relationship Management (CRM) system using Django, PostgreSQL, Django Rest Framework, Docker.
